Maxine Grant

– RESTORATIVE AIDE –

Zionsville Meadows

Dr. Maxine Grant has been working in healthcare since 1969. Starting at a young age, Maxine had completed over 2,000 hours of Volunteer hours with St. Vincent Medical Group before she graduated high school. Maxine worked in healthcare jobs to put herself through college, where she thrived. As a statistician with multiple degrees, she also has a PhD. in Lifespan Human Development. After serving in many different healthcare roles throughout her career, Maxine came to work with the residents at Zionsville Meadows in 2004. She states that she feels very blessed to have never had a job that she did not enjoy.

Maxine loves many aspects of her job. She enjoys studying the positive and negative examples of healthy aging. Her favorite part of her job is personal interactions with the residents. In whichever task she takes on with the residents, she engages on a personal level and loves getting to know their personalities, interests, desires and history.

As a Restorative Aide, Maxine exemplifies excellence in her work daily. Her peers state that her positivity and work ethic consistently set the bar for the rest of the staff. Her compassion is contagious and improves the mood of each resident. Maxine effortlessly models ASC's C.A.R.E. values and has earned the title of Zionsville Meadow's 2021 Quest for Excellence Winner. Congratulations!
