

Anthony Peters

— LPN —

Heritage Park

Tony Peters, LPN at Heritage Park, has served our community since 2015 and jumped in headfirst. He is so eager to learn.

Tony's interactions with the residents, families and his peers are always positive and Tony is a favorite among them all. He responds to questions and concerns quickly and is always willing to do whatever it takes to ensure the residents' needs are met. He is frequently seen on the floor providing direction to CNAs and does not hesitate to jump in and help with whatever task is needed. Tony is also quick to offer a humorous quip, creating laughter among everyone.

Because of Tony's exceptional performance at Heritage Park, he was accepted in the American Senior Communities O2NE nursing program for assistance to continue his education. He is working to obtain his RN licensure and is very grateful to ASC for this opportunity allowing him to continue to work while going to school. As an RN at Heritage Park, Tony will continue to contribute excellent nursing judgement and outstanding customer care.

Tony has both the knowledge and drive to succeed in advancing his nursing career and Heritage Park is fortunate to call Tony "one of ours!"
