

## Becky Schlagel

— CNA —

*Rosegate*

Becky Schlagel, CNA, has been serving Rosegate Village with grace for 14 years. She was nominated for her unwavering service to not only the residents but also her team members. She makes everyone feel special and goes above and beyond what she is asked to do.

When Covid-19 hit, Becky didn't hesitate to make a call to her sewing group and go to work on making masks for the staff and residents. With transportation and activities being temporarily closed, she wanted to make a difference with those in our care and offered her time to work as a CNA. She worked day in and day out on the COVID-19 units giving patient care, helping residents do Facetime calls to loved ones, and offering comfort and compassion.

When asked about how she felt about being chosen as the Quest for Excellence winner, Becky responded with "I was completely surprised, and it is a true honor."

If you ask any staff member about Becky, there is no answer other than she is "amazing, a great team player, and a wonderful person."

Becky is a wife and a mother to three children and two grandchildren. When she is not working, Becky enjoys sewing, gardening, fishing and just about anything she can do to be outside.
