

## Clyde Smith

— CNA —

### *Williamsport Nursing & Rehabilitation*

Clyde Smith is the Williamsport Nursing & Rehabilitation 2021 Quest for Excellence Winner. She has been serving seniors in our community since 1997 as a CNA on night shift. Clyde comes into work determined to help in any way she can and is always going above and beyond to make a difference in our residents' lives. When asked how she felt after getting the news she was chosen as our winner, she replied, "I was blown away! I love my job, and I love our residents, and felt honored and grateful. It really touched my heart. We are one big happy family and I'm proud to be a part of it."

A team member said of Clyde, "She is a very hard worker, kind, caring, loving, and passionate with residents, families and staff members."

Clyde's supervisor noted that "She has excellent attendance, dependable and is always getting praised by residents. She builds excellent and meaningful relationships with residents and really makes a huge difference for our family here. We could not be more proud of Clyde or more appreciative of her ability to exemplify our ASC core values. We are very lucky to have her be such a bright shining star of our team here."

Clyde grew up on a farm helping her big family, which is where her love for farm animals started. Clyde is a very well-rounded individual who when not at work spends time painting, learning new languages, studying art and history, listening to classical music, learning about growing vegetables, working on her bucket list, making travel plans and dabbling with her ancestry tree.
