

# Joel Monsewicz

– RN –

## *Springs Valley Meadows*

Fredric Joel Monsewicz, RN, is the Quest for Excellence winner from Springs Valley Meadows for 2022! Joel has been a member of Team Springs Valley Meadows for more than 10 years. He began as a CNA, then worked to become an LPN and after that, became an RN as a graduate of ASC's O2NE nursing scholarship program in 2021.

Joel is always ready and willing to step up to help with any situation, whether it's managing multiple admissions, helping the CNAs on the floor, or offering to take weekend call as a Nurse's Week gift for our nurse managers.

Joel shares his life with his wife, Brianna, whom he met at SVM – they even visited our residents on their wedding day! Joel and Bri will welcome a baby boy in November of this year. In his free time, Joel enjoys bringing his two dogs into the community to socialize with our residents.

When asked why he enjoys long-term care, Joel said, "it isn't an easy task – it takes a lot of work, patience, and a kind heart – it's a rewarding task though. The feeling of pride you get when you make an impact on your elderly patients is unmatched."

"There is probably not a week that goes by that I don't receive a compliment about Joel," says SVM's Executive Director, "I have gotten phone calls, random evening text messages, and even had people stop me in the grocery store to tell me how amazing he is and how they know their loved one is in good hands whenever he is there. That speaks volumes and I am so proud to have Joel on our team!"
